**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please keep fair competition for the internet. I chose a competitive provider because I believe In freedom of choice for the consumer, and I believe America should be the example to the world when it comes to freedom of choice.

Raising the cost of the internet will make an internet not available to everyone no matter their social status. In doing so, you will make freedom of choice available only to a certain class.

Broadband is critical, if we want to rebuild America's economy, the internet is perhaps the most important tool.

Europe has fiber almost everywhere now, why America the richest country in the world does not have it ? San Francisco my city of residence does not have fiber all over the city !? So close to the Silicon Valley !? That does not make any sense !

FCC people, please, America need a true choice of internet providers for its people and that include All no matter the social status. In having just a handful of super powerful providers, you will show to the rest of the world that our country has lost its most fundamental believes of Freedom and Democracy !

Keep the internet in America accessible to all of its people !!  
I want choice for my home and country !!
